SUMMARY

Undergraduate at NIT Jalandhar with hands-on experience in backend development, full-stack web applications, and Python-based systems. Strong foundation in data structures, algorithms, and object-oriented programming. Passionate about building scalable software and seeking SDE internship opportunities.

EDUCATION

Dr. B R Ambedkar National Institute of Technology, Jalandhar
Bachelor of Engineering in Mechanical Engineering **August 2023 - Present**

TECHNICAL SKILLS

Programming Languages:	C++, Python, JavaScript, TypeScript
Web and Frameworks:	React.js, Next.js, HTML, CSS
Backend and Databases:	Node.js, MongoDB, MySQL, GraphQL
CS Fundamentals:	Data Structures and Algorithms, Object-Oriented Programming, Git

WORK EXPERIENCE

SOFTWARE DEVELOPER INTERN - TECHLOMEDIA **June 2026 – July 2026**

- Collected and preprocessed large-scale e-commerce product review data using Python.
- Implemented sentiment analysis pipelines to classify customer feedback.
- Assisted in developing review summarization logic to extract key insights from unstructured data.
- Collaborated with senior engineers to integrate analytical outputs into existing systems.

OPEN-SOURCE CONTRIBUTIONS

Dynamo | Handshake AI (US-based) *Link*

- Contributed to an AI-driven project using **Python, Docker, and Linux** through GitHub-based collaboration.
- Submitted pull requests, implemented changes, and improved project components following development best practices.
- Worked with version control, debugging, and containerized workflows in a real-world engineering environment.

PROJECTS

AI Virtual Assistant (Python) *Link*

- Designed and developed a voice-controlled personal assistant for hands-free PC operation.
- Integrated Speech Recognition, Google Text-to-Speech API, and PyAudio for real-time interaction.
- Implemented features including web search, application launching, system commands, and music playback.
- Focused on accessibility, making the tool useful for visually impaired users.
- **Tech Stack:** Python, Speech Recognition, Google TTS, APIs

ACHIEVEMENTS

Solved **300+ DSA problems** on **LeetCode**, **GFG**, showcasing strong command of **algorithms and data structures**
